## Team Talk

### **TEAM TALK**

1. Review from message: What is a good Biblical definition of faith and where would you find it taught in the New Testament? (You need to remember where this is!)
2. How would you explain to a non-Christian the relationship of the facts of Jesus' person, teaching and works/accomplishments to faith for eternal life and faith for everyday life? How would your explanation help them understand that Christian faith is not merely believing in something that "you know isn't true or have no evidence for being true"?
3. Do you have faith in Jesus Christ alone for salvation?
4. In what area of your everyday life do you need to have a greater trust/faith in Jesus Christ as the One who can be completely trusted?
