TEAM TALK

- ✓ Interact on the Gibeonites: Putting yourself in their sandals, what might you have counseled their people to do in light of the overwhelming invading Israelite forces? Did they make the right decision for themselves and their people?
- ✓ Discuss Joshua's leadership mistakes in dealing with the Gibeonites: What are some good take away lessons for us as men following Christ in our day? Are there any applications for us?
- ✓ We all have made leadership mistakes that have left us with consequences that we have to live with. How can we positively live with those consequences?
- ✓ "No battle plan survives first contact with the enemy" it is said (or something like it). We don't know what plans Joshua might have had to win Central Canaan, but that decision was taken from him when the kings united and attacked. Discuss Joshua's leadership in dealing with decisions beyond his control.
- ✓ WHO is the ultimate Warrior of Israel? Leave today trusting Him!
